

31 44 (New) The weather analyzing and reporting station of claim 24, wherein the sensing circuit includes a barometric pressure sensor, and the data signal transmitted by the transmitter represents a barometric pressure sensed by the barometric pressure sensor.--.

REMARKS

It is respectfully requested that the this Supplemental Preliminary Amendment be entered in the above-identified application. Claims 14-44 are now pending. By this Supplemental Preliminary Amendment, new claims 27-44 are added.

It is believed that the present application is in condition for immediate allowance. Should the Examiner feel that an interview would be helpful to resolve any concerns, the Examiner is invited to contact the undersigned at the number listed below.

Respectfully submitted,
